Summary

Full-stack .NET engineer with 4+ years of experience building cloud-native, microservices-based and multitenant applications with .NET, Angular, Azure, and Azure DevOps. Strong focus on cloud architecture, CI/CD, data migration, cost optimization, automated testing, and developer experience.

Experience

KPMG Poland

Nov 2022 – Present

Junior .NET Developer II – .NET Developer III – Senior Test Automation Engineer

Warsaw, Poland

- Built and maintained applications using .NET, Angular, Azure, and Azure DevOps, including CI/CD processes.
- Led the migration of a microservice from Azure Cosmos DB to Azure SQL with Entity Framework Core, including data migrations and cleanup.
- Introduced Cosmos DB container bundling in a multitenant application, reducing cost by 90% and improving RU management.
- Set up supporting Azure Data Factory infrastructure, integrating Azure Functions, Managed Identities, Key Vault, RBAC, Cosmos DB, Azure SQL, and Azure Blob Storage.
- Supported runtime tenant sharding across Azure SQL, Cosmos DB, and Blob Storage for multiple microservices.
- Built import, export, and migration flows for dynamic configurations powering data-driven forms, with in-memory optimizations for better performance.
- Maintained Selenium automation tests in C# and supported migration to Playwright with TypeScript to improve stability and test coverage.
- Implemented .NET Aspire with Podman to orchestrate the local development environment and improve developer experience.

Coded Projects

Apr 2022 – Jul 2022

Junior Full Stack Developer

Warsaw, Poland

- Developed full-stack features using React, TypeScript, Chart.js, C#, ASP.NET Core, SQL, Entity Framework, and stored procedures in a microservices-based environment.
- Contributed to code reviews, debugging, testing, and UI improvements across frontend and backend applications.

Polish Rope Pulling Association

Feb 2021 – May 2021

Junior Software Engineer

Warsaw, Poland

- Built a C# integration tool to sort and merge local files for migration to a web service.
- Automated repetitive workflows with Excel VBA, reducing manual errors and making data migration 10x faster.

Certifications

- Microsoft Certified: Azure Developer Associate AZ-204, Azure AI Fundamentals AI-900, Azure Data Fundamentals DP-900, Azure Fundamentals AZ-900

Project

RentifyNow (rentifynow.com)

Ongoing

Founder / Developer

Personal SaaS Project

- Building a SaaS platform for solo landlords to manage properties, tenants, finances, documents, and messages, with a built-in AI assistant using .NET and Angular.
- Own the VPS-based infrastructure end-to-end: deployment, environment configuration, monitoring, and operations.

Education

Polish-Japanese Academy of Information Technology

Oct 2021 – Jul 2025

Bachelor of Engineering in Computer Science

Warsaw, Poland

Skills

Backend: C#, .NET, ASP.NET Core, Entity Framework Core, SQL

Frontend: Angular, TypeScript, JavaScript, React, HTML, CSS

Cloud & DevOps: Azure, Azure DevOps, YAML Pipelines, CI/CD, Azure Functions, Azure App Service, Azure Storage, Azure Cosmos DB, Azure SQL, Azure Data Factory, Key Vault, Managed Identities, RBAC

Testing & Tools: Playwright, Selenium, Git, Postman, Bruno, Docker, Podman, .NET Aspire

Languages: Polish Native, English C1, Spanish Basic
